About

Developer Student Clubs Chapter in Mansoura University. Our chapter's mission is to help students learn a wide range of technical skills, bridge the gap between theory & practice and meet other student developers. We will be holding technical workshops on a variety of topics. The goal of these workshops is to introduce students to developer tools and help them feel comfortable in learning and working on projects outside of the classroom. Diversity and inclusion is one of our top priorities, and anyone, including those with no background in computer science, is welcome to come to our events.

Upcoming Events
